

- **Altira AG generates cash proceeds from capital increase of EUR 19.5 million**

Frankfurt, 4 June 2007

Altira AG successfully placed the capital increase of 380,000 new shares – almost 10% of the authorised capital – with the exclusion of subscription rights resolved on 4 June 2006 with German and international institutional investors. The 380,000 new shares were issued at a price of EUR 51.30, resulting in gross cash proceeds to the company of EUR 19.5 million. The transaction was accompanied by Silvia Quandt Bank – a dependent branch of biw Bank für Investments und Wertpapiere AG.

The objective of the capital increase is to strengthen equity and extend the liquid funds available for potential acquisitions. What is more, as a result of an expanded free float and the planned change to the Prime Standard to the end of the year, management expects to become more attractive, particularly for institutional investors.

About ALTIRA

Altira is a diversified asset management group that operates in the investment classes of private equity, public equity and real estate and alternatives with several independent subsidiaries. Altira sees itself as a growth platform whose network, infrastructure, management expertise and capital resources can be used by the various asset management models without them having to give up their own identity. Altira thus allows broad diversified across various investment classes and customer groups and can thereby achieve highly stable corporate revenues.
